

How to Import a Pack in Playbeat

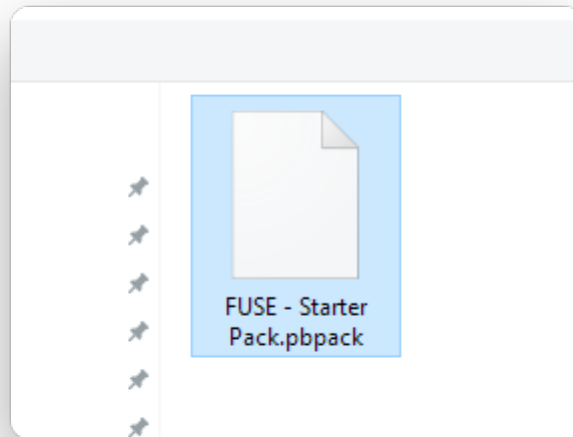

1. Open Playbeat app and go to Preset manager by clicking the '**Load**' button on the top menu section

2. Open the '**Preset & Packs**' tab, and click on the '**Import Pack**' button

3. Locate and select the Pack you want to import from your Computer Folder and click Open/Import

4. Done! You will now be able to see the Imported Pack along with all of its contents (Presets & Samples) Once a preset is loaded you can Randomize it, Remix it, tweak it further or use its sounds for your own presets.
